You are subscribed to Sulfate Standard for Wild Rice for Minnesota Pollution Control Agency. Some new information about this topic is now available.

Please see below for an update on the scientific peer review of the MPCA's Analysis of the Wild Rice Sulfate Standard Study that is taking place this summer.

- ERG, the agency's contractor for the scientific peer review, has selected seven scientists who will serve as reviewers. A document from ERG that outlines the selection process and names the reviewers is posted on the MPCA's scientific peer review web page <http://www.pca.state.mn.us/kppq38rq>
- The MPCA's Analysis of the Wild Rice Sulfate Standard: Draft for Scientific Peer Review and the technical charge that guides the review process are also posted on the web page above. Note that the MPCA's Analysis is a refinement of the Preliminary Analysis that was shared earlier this year.
- The two-day review meeting in St. Paul will take place on August 13-August 14, 2014. Additional registration and meeting details will be posted later this summer on the MPCA's peer review web page and announced via Gov Delivery.
